

# We have the performance tested solutions that will save you *TIME* and *MONEY!*

## TRUCK & TRANSIT EXTERIOR CLEANERS

### **Thunderbolt**

Our best polished metal safe truck wash product. **Thunderbolt** uses advanced surfactant technology to remove road film and other soils. Great degreaser for removing diesel fuel stains.

### **Green Lightning**

The latest innovation from Ver-tech Labs. **Green Lightning** uses “green” and highly effective surfactant technology to remove road film and other soils from trucks, construction equipment and other heavy vehicles. Excellent soap for pressure washers for general cleaning and degreasing.

### **Tsunami**

Our premium high pH, moderate foaming alkali for cleaning tractors and trailers. This product provides maximum soil removal using low or high pressure spray applications. Can be used in one or two step cleaning applications.

### **TTV**

This synthetic, high foaming, biodegradable formulation was designed for use in bus and transit washes, as well as auto dealerships. **TTV** is the choice for brush or agitation applications. It will not streak or attach to painted surfaces.

### **Agresol Truck Wash**

A mild and economical truck wash detergent. It has been formulated to remove grease, oil, carbon, and bugs that have been dried into a surface. **Agresol** is an exceptional debugger.

### **Z-Blend**

Specially formulated for use with pressure washing equipment on engine parts and other heavy equipment. It is an excellent detergent and degreaser. **Z-Blend** includes rust inhibitors to prevent flash rusting of bare metal surfaces.

## SALT SHIELD PRODUCTS

### **Salt Shield 100**

**Salt Shield 100** is a low pH detergent used for touchless cleaning, friction washes or manual brushing. Can be applied to all external surfaces of the vehicle for exceptional cleaning and mitigation of corrosive effects of winter road salt. Spray on the undercarriage of vehicles for maximum effect. Polished metal safe aluminum cleaner.

### **Salt Shield Hi Foam**

**Salt Shield Hi Foam** is a low pH detergent used for friction or brush type automatic washes or manual brushing.

### **Salt Shield Barrier**

**Salt Shield Barrier** leaves a protective barrier that provides temporary protection from road salts between cleanings. After the vehicle underside has been cleaned with Salt Shield 100, spray with no-rinse **Salt Shield Barrier**.

## ALUMINUM & TRAILER BRIGHTENERS

### **Super Alumalite 8% and 20%**

Designed to remove dulling oxides from aluminum trailers, leaving the surface bright and clean. **Super Alumalite** contains powerful added cleaning agents for tough soils. It is ideally suited for a two-step washing process with trucks and trailers.

### **Citric Clean**

This low pH formula was developed for applications where the use of HF acid is not permissible. **Citric Clean** is a great metal safe citrus based acid pre-soak that brightens chrome and aluminum.

## SPECIALTY PRODUCTS

### **Upholstery Cleaner**

Cleans and deodorizes in one step. Tough on soils, safe for all fabrics.

### **Carpet Cleaner**

Cleans all types of soils and road salts from carpeted areas. Easy to use and eliminates odors.

### **Revolution**

**Revolution** is a non corrosive and safe all purpose cleaner. This product can be used on all surfaces, inside and outside the vehicle. Eliminates stains and odors.

### **Clean Safe**

Our medium to heavy duty orange solvent based cleaner and degreaser. **Clean Safe** removes tar, asphalt, glues, gum, and many soils.

### **Clean Flex**

Our light to medium duty orange solvent based cleaner and degreaser.

### **Concentrated Glass Cleaner**

A hard working all surface cleaner cost just pennies to use. About 2 ounces to 1 gallon of water.

### **Black Knight**

This is a super concentrated, heavy duty, alkaline detergent that can be used for multiple applications including; degreasing, tire cleaning, and wheel cleaning. Great for fuel trucks.

### **Vision**

Polished metal safe aluminum cleaner. Exceptional road film remover. Permanently removes odors from shipping containers, dumpsters, garbage trucks and refrigerated containers. A safe, green product with a multitude of uses on a variety of surfaces.

### **Blue Thunder**

Versatile multi-purpose cleaning and detailing product. Great for white-walls, vinyl upholstery, wheel wells, under the hood, door jams and chrome. **Blue Thunder** is a floor cleaner and motor degreaser too!

### **Wash & Shine**

Made for the hand wash operator. It leaves a vehicle clean and with a shine. Great for auto dealerships.

## FLOOR CLEANERS

### **Powder Keg 150**

Heavy duty, powdered alkaline floor cleaner, formulated for deep cleaning action. It cuts through heavy grease and oily deposits quickly for easy removal.

## PARTS WASHER SOLUTIONS

**A777 Plus** is a premium water-based degreaser designed for spray cabinet parts washer. Contains metal safe additives for use on softer metals.

**A777** is a premium water-based degreaser designed for soak tank parts washer. Contains metal safe additives for use on softer metals.

## DEGREASERS

### **Ace 10 Plus**

Our best heavy duty degreaser. **Ace 10 Plus** can be used for general degreasing of vehicles, as well as cleaning the underbody of tractors and trailers. Also a great product to be used in automated floor scrubbers for cleaning shop floors.

### **Tornado Degreaser**

Used when no other degreaser will work. It is very effective at dissolving heavy grease, oil, and wax build up on truck bodies, chassis and concrete floors. It can also be used as a presoak for removing rubber and skid marks from floors or truck beds. Apply with a pressure washer, brush, or auto-scrubber.

## CONCRETE REMOVERS

### **Crete Clean**

For use in the cement industry to remove portland cement, lime or concrete from cement trucks, machinery and other equipment. **Crete Clean** is an acid cleaner fortified with surfactants for deep cleaning action.

### **Crete Clean Gel**

Designed for the concrete industry to remove concrete from cement trucks. When mixed with water it will form a gel-like substance that will adhere to vertical surfaces.

# Are you ready to battle winter road salts? Defend your vehicles with SALT SHIELD

Stop road salt corrosion in its tracks with Ver-tech Labs Salt Shield technology. Originally developed as a special low PH car wash detergent and presoak, Salt Shield has proven effective at preventing and mitigating the damaging effects of road deicers. Salt Shield can be readily integrated into your routine maintenance procedures. When used properly, Salt Shield is your first line of defense in the corrosion battle.

Do you want your vehicle to look like this? Or this?

Actual photos of truck frames based in Michigan. Vehicle on right has been washed exclusively with Ver-tech Labs products.

## How the Salt Shield System works:

The Salt Shield System is a two-step process.

Step 1: Salt Shield detergents use a unique chemistry that “neutralizes” the corrosive effects of magnesium and calcium chloride. Road deicers exposed to Salt Shield become soluble in water allowing for easy removal. Salt Shield prevents the road deicers from causing further damage to your vehicles.

Step 2: For added protection, use Salt Shield Barrier. This product leaves a protective film that provides temporary protection from road salts between cleanings. After you have cleaned the underside of the vehicle with Salt Shield detergent, spray the underside of a clean vehicle with no-rinse Salt Shield Barrier and drive away.

## Use Salt Shield to Protect Your Investments

- Easily integrated into your routine cleaning process as a low PH detergent
- No expensive coatings
- No elaborate application technology
- No extended down time
