CORROSION PROTECTION ALL YEAR

- * Road salts are not just a winter problem. Road salt is used in dust control for all types of construction projects, highway construction, farm roads and anywhere else high levels of dust may create a safety issue.
- Salt Shield is a specially formulated detergent that will clean and neutralize dust suppressants, road salts and deicers on your vehicle's surfaces.
- Salt Shield creates a protective barrier film on exposed iron and steel surfaces. This protective film prevents sodium, calcium, and magnesium chlorides from corroding iron and steel surfaces.
