

Q: Why do I need **MAGMA SHINE?**

A: **MAGMA SHINE is the ultimate protectant and wax for your vehicle's paint finish.**

- **MAGMA SHINE** protects your car's paint finish from the harmful effects of UV rays, airborne contaminants, bugs and bird droppings.
- **MAGMA SHINE** leaves a beautiful, shiny finish on your vehicle
- **MAGMA SHINE** is a combination of hard shell carnauba wax and an advanced silicone protectant.
- The carnauba wax in **MAGMA SHINE** gives the car finish a deep, rich, liquid luxury car look.
- The slick, smooth, hard shell finish can be felt by running the back of your hand on the vehicle after treatment.

Carnauba wax
