

Salt Shield® because Rust never sleeps

Vehicle corrosion is constant and costly. **Salt Shield®** is a simple solution to address the damaging effects of road salts. Use **Salt Shield®** regularly for more effective removal of road salts.

- **Road salts are not just a winter problem.** Road salt is used in dust control for all types of construction projects, highway construction, farm roads and anywhere else high levels of dust may create a safety issue.

- **Salt Shield®** is a specially formulated detergent that will clean and neutralize dust suppressants, road salts and deicers from the underside of your vehicle.
- **Salt Shield®** removes winter sodium, calcium, and magnesium chloride deicer salts, even when those salts are mixed with carriers like cheese brine and sugar beet juice.
- As an added benefit **Salt Shield®** creates a protective barrier film on exposed iron and steel surfaces. This protective film prevents sodium, calcium, and magnesium chlorides from corroding iron and steel surfaces.
