

# VSS130 DISINFECTANT/SANITIZER

**1 GALLON**  
**EPA# 6836-266-70732**

**VSS130 DISINFECTANT/SANITIZER** is an EPA registered quat based sanitizer and disinfectant. VSS130 is qualified for use against SARS-CoV-2, the novel Coronavirus that causes COVID-19.

- Active ingredient, Quaternary ammonium
- Concentrate formula
- Makes up to 213 gallons of diluted, ready-to-use solution
- Requires a contact time of 1 minute
- KEEP OUT OF REACH OF CHILDREN

## DIRECTIONS & USE INSTRUCTIONS

NOTE: It is important to follow and refer to the dilution and use instructions found on the label.

### **USE SOLUTION:**

**3 OZ. VSS130 / 5 Gal Water**

**OR 450 ppm active quat**

### **DISINFECTION DIRECTIONS:**

\*Prior to applying VSS130 be sure hard surfaces are pre-cleaned .

Add 3 oz. of VSS130 per 5 gallons of water to disinfect hard, nonporous surfaces. Apply use-solution with a cloth, mop, sponge, sprayer or by immersion thoroughly wetting hard surfaces. For sprayer applications use a coarse spray device and spray 6-8 inches from surface. NOTE: allow treated surfaces to air dry completely.

## PACKAGING & SHIPPING

Package Size: 1 Gallon  
Shipping Size: 4x1 Gallon Box  
\*Product can ship throughout the contiguous United States.

\*Due to COVID-19 Pandemic small packaging and dispensing equipment are limited. At this time we are able to package in 1 gallon containers and end users can use through a variety of dispensers or smaller packaging.
