

SAFE SIMPLE CONCENTRATES

SAFE

- Prioritizes employee safety
- Convenient "No Touch Cap" prevents chemical contact
- No more moving heavy drums

SIMPLE

- Color coded labeling system for easy product identification
- No special equipment needed
- No complicated backroom installations

CONCENTRATES

- Full reclaim compatible product line
- Save on storage with 5g and 15g containers
- Proven product performance

CLEAN BETTER

FULL LIST OF SSC PRODUCTS

| Safe Simple Concentrates | No Contact Cap Color | Additional Information |
|--|--|---|
| SSC050 SSC PREP GUN |  | no color, no scent |
| SSC100 SSC LOW pH |  | no color, no scent |
| SSC150 SSC LOW pH |  | no color, fresh scent |
| SSC200 SSC HIGH pH |  | amber color, fresh scent |
| SSC300 SSC ALKALINE BOOSTER |  | no color, no scent |
| SSC400 SSC WHEEL CLEANER |  | no color, no scent |
| SSC500 SSC FOAM DETERGENT |  | no color, no scent |
| SSC510 SSC TRU PEARL® CLEAN 2X |  | no color, no scent |
| SSC515 SSC TRU PEARL® CLEAN HIGH FOAM 2X |  | no color, no scent |
| SSC520 SSC FOAMING FRAGRANCE |  | light orange, berry scent |
| SSC600 SSC TRIPLE FOAM POLISH |  | available in red, blue, green; cherry scent |
| SSC700 SSC TRU PEARL® SHIELD 2X |  | amber color, creamsicle scent |
| SSC800 SSC TRU PEARL® DRY 2X |  | no color, no scent |

Available Sizes (Gallons): 5 / 15

 Reclaim Compatible

RECLAIM COMPATIBILITY

You aren't just washing with 'soap' at your carwash. Carwash chemistry uses a variety of components that will vary from your wash/cleaning end and your wax/finishing end of the wash. These components can be incompatible and react together creating insoluble deposits within the reclaim system. These deposits can interfere with equipment performance and make it difficult for good bacteria to work in your carwash system. The results include dirty water, dirty walls, poor cleaning performance and noxious odors.

Using a full reclaim compatible product line from Ver-tech Labs creates a balanced car wash system with cleaner reclaim water. Using clean reclaim water throughout your carwash contributes to cleaner walls and equipment, reduced overall maintenance expenses and fresh water savings. For optimal wash results use Ver-tech Labs water saving formulations.

Samples of reclaim water over a 7 day period at a wash site that switched to all Ver-tech Labs reclaim compatible chemicals.

VER-TECH LABS INVENTORY APP

Take your inventory to the next level using the Ver-tech Labs Inventory App. Scan a QR code from any VTL product label for instant access within the app. Complete a full chemical inventory in minutes from any mobile device. The app will automatically calculate products and quantities needed when you are ready to reorder.

Ver-tech Labs app includes:

- Configurations for single and multi-site inventory,
- Customization of personnel access to specific app features,
- Historical inventories and orders.

Manage your inventory and time better using the Ver-tech Inventory App.

Available for FREE for all Ver-tech Labs customers.
