

Be the **best car wash**
in your market.

CLEAN BETTER

www.ver-techlabs.com

Most car wash owners are frustrated with the big brand chemical companies that over promise and under deliver. At Ver-tech Labs, we work closely with your car wash to customize a chemical program that improves performance, lowers operating costs, and ensures happy customers, so you become the leading car wash in your market.

At Ver-tech labs, we know you want to be the best car wash in your market. To do that, you need a chemical company that works closely with you to build a growing and profitable car wash. The problem is the big brands that over promise and under deliver only to sell you products they won't stand behind. This leaves you feeling frustrated and stuck.

We believe you shouldn't be stuck with a chemical company that doesn't treat your business like it's their business. We understand how much time and money you've invested to build your car wash. It's important to partner with vendors that know how important the success of your car wash is with you.

That's why, for over 25 years we've helped hundreds of car wash businesses become stand out brands in their communities and build growing and profitable washes using high quality chemicals at affordable prices.

Becoming a high-performing car wash is easy:

1. Schedule a call
2. We customize your chemical program
3. Enjoy a profitable and successful car wash

Schedule a call today so you can avoid higher operating costs, inconsistent performance, and instead become the car wash leader in your market.

Clean Better with Ver-tech
Tony Vertin, CEO

CERAMIC TECHNOLOGY

Ver-tech ceramic products for the carwash create smoother surfaces for higher shine levels and greater hydrophobicity. Ceramic products can be used in upgraded wash packages and will make repeat customer vehicles easier to clean.

The **TRU PEARL®** premium cleaning and ceramic protection system offers layered technology at both the wash end and wax end. Tru Pearl Clean and Tru Pearl High Foam penetrate surface pores and imperfections to remove deep seated road grime, dirt and soils. Tru Pearl Shield and Tru Pearl Protect fill in imperfections and smooth the vehicle surface. Tru Pearl Dry enhances drying, creates an extremely water repellent layer and leaves a brilliant mirror-like shine.

Ceramic products are available for a variety of applications in the VAULT keep-fill, Safe Simple Concentrates, and conventional product lines. Your wash customers will be delighted with the exceptional results of Ver-tech Ceramic Technology products.

Tru Pearl®	Sizes (Gallons)	Reclaim Compatible	Comments
TRU100 TRU PEARL® CLEAN	5 / 15 / 30 / 55		Ceramic detergent
TRU300 TRU PEARL® SHIELD	5 / 15 / 30		Ceramic protectant
TRU200 TRU PEARL® DRY	5 / 15 / 30 / 55		Ceramic drying agent
TRU400 TRU PEARL® HIGH FOAM	5 / 15 / 30		Ceramic high foaming detergent
TRU350 TRU PEARL® PROTECT	5 / 15 / 30		Ceramic clear coat sealer
EXT143 REPEL CERAMIC FOAM	5 / 30		available in blue, green, red, white, yellow
SSC510 TRU PEARL® CLEAN 2X	5 / 15		SSC ceramic detergent
SC515 TRU PEARL® HIGH FOAM 2X	5 / 15		SSC high foaming ceramic detergent
SSC700 TRU PEARL® SHIELD 2X	5 / 15		SSC ceramic protectant
SSC800 TRU PEARL® DRY 2X	5 / 15		SSC ceramic drying agent
VT5150 – VAULT CERAMIC HIGH FOAM	4x1 Gallon		Keep-fill ceramic high foam detergent
VT7000 – VAULT CERAMIC PROTECTANT	4x1 Gallon		Keep-fill ceramic protectant
VT7800 – VAULT FLEX CERAMIC	4x1 Gallon		Keep-fill flex ceramic protectant
VT8000 – VAULT CERAMIC DRY AID	4x1 Gallon		Keep-fill ceramic drying agent

VAULT

Maximize your backroom and deliver a high performance clean with the VAULT keep fill system.

The VAULT program offers easy to use 1-gallon concentrates that are color coded and paired with color matching 10-gallon reservoir tanks. VAULT enhances employee safety with easy to use 1-gallon containers and a no-touch chemical system. This full line of high performance concentrates are 100% reclaim compatible. VAULT allows for easy installation in any backroom. Products and tanks are equipped and ready for use with the Ver-tech Inventory App.

Maximize your backroom and unlock a better way to clean with the VAULT system from Ver-tech Labs.

Keep-Fill Product	Product Code	Product Label Color	Additional Information

COMPATIBLE IN OUR APP

SAFE SIMPLE CONCENTRATES

- Safe Simple Concentrates (SSC) offer a chemical program that prioritizes employee safety, requires no special equipment and no complicated backroom installations.
- SSC is a full concentrate line formulated with the same high performance of traditional Ver-tech products in easy to handle 5 and 15 gallon containers. Each 15 gallon container has the cleaning power of our standard 30 gallon container. SSC products are packaged with color matched labels and caps. The no touch cap prevents chemical contact and spillage during switchovers.
- Build a better backroom with Safe Simple Concentrates.

Safe Simple Concentrates	Sizes (Gallons)	Reclaim Compatible	No Contact Cap Color	Additional Information
SSC050 SSC PREP GUN	5 / 15			no color, no scent
SSC100 SSC LOW pH	5 / 15			no color, no scent
SSC150 SSC LOW pH	5 / 15			no color, fresh scent
SSC200 SSC HIGH pH	5 / 15			amber color, fresh scent
SSC300 SSC ALKALINE BOOSTER	5 / 15			no color, no scent
SSC400 SSC WHEEL CLEANER	5 / 15			no color, no scent

SSC700 SSC TRU PEARL® SHIELD 2X	5 / 15			amber color, creamsicle scent
SSC800 SSC TRU PEARL® DRY 2X	5 / 15			no color, no scent

Which presoak is best for your cleaning needs?

It depends on location and season. There are over 100 different types of soils in the United States. Water hardness in the United States can vary from city to city. Additionally, in the summer and fall months when river flows and lake levels are lower, cities may switch to ground water pumped from wells which tends to have a higher hardness level. Our presoaks are formulated with different builders, surfactants and additives to work in different locations and seasons.

Presoaks are formulated using a variety of builders and surface active agents (surfactants). They are the heavy lifters when it comes to cleaning vehicles. Road film and grime are made up of organic and inorganic contaminants. Typical composition can include dust, sand, dirt, rubber particles, soot, carbon deposits, tree sap/resin, biological matter, minerals, grease and oils. Using a High pH (alkaline) presoak in combination with a Low pH (acid) presoak ensures a cleaner car surface allowing all other car wash applications to perform better.

High pH (alkaline) products are effective at removing organic material such as oils, grease, insects and bird droppings. Additional applications for high pH presoaks include prep gun detergent, wheel cleaning and degreasing.

High pH Presoak	Sizes (Gallons)	Reclaim Compatible	Relative Strength to Other High pH Products
EXT460 GOLDEN KNIGHT	5 / 15 / 30 / 55		3X
EXT432 BLACK KNIGHT	5 / 15 / 30 / 55		2X
EXT126 DOUBLE BARREL	5 / 15 / 30 / 55		2X
THU100 THUNDERBOLT	5 / 15 / 30 / 55		1X
EXT216 HIGHLINE	5 / 30 / 55		1X
EXT800 KICK-IT	5 / 15 / 55		Alkaline Booster

Low pH (acid) products are effective at removing inorganic material such as minerals, sand, silt, rust and scale. Low pH products are essential for removal of "eyebrows" on glass, cleaning and brightening metal. Additional applications for low pH presoaks include wheel, glass and metal equipment cleaning.

Low pH Presoak	Sizes (Gallons)	Reclaim Compatible	Contains Hydrofluoric Acid
EXT470 LIGHTNING	5 / 15 / 30 / 55		No
EXT430 VISION	5 / 15 / 30 / 55		No
EXT428 DOUBLE VISION	30 / 55		No
EXT427 SAPPER	5 / 30		No
EXT117 ROYAL PRESOAK	5 / 30		No
EXT115 PRO II	5 / 15 / 30 / 55		Yes
EXT111 PRO III	55		Yes

Prep Gun/Debugger	Sizes (Gallons)	Reclaim Compatible	Relative Strength to Other High pH Products	Comments
EXT126 DOUBLE BARREL	5 / 15 / 30 / 55		2X	high foaming for friction arch applications
HEL100 HELLCAT	5 / 15 / 30 / 55 / 250 Gallon Tote		2X	
EXT372 BUG-BE-GONE	5 / 15 / 30 / 55		1X	requires dwell time, safe on hot surfaces
THU100 THUNDERBOLT	5 / 15 / 30 / 55 / 250 Gallon Tote		1X	

Wheel and Tire Cleaners enhance the appearance of a vehicle and can protect wheels against corrosion. Every day, vehicles are subjected to road grime, dirt, various contaminants and brake dust. Brake dust is composed of metal filings, carbon fibers and adhesive residues. Not only does it make the vehicle look dirty, baked on brake dust can permanently damage the metal surface of wheels. For best results your Wheel and Tire Cleaning application should include both a high pH (alkaline) and a low pH (acid) product.

Tire & Wheel Cleaner	Sizes (Gallons)	Reclaim Compatible	Contains Hydrofluoric or Sulfuric Acid	Comments
EXT138 WHEEL BLASTER	5 / 15 / 30 / 55		No	alkaline
EXT470 LIGHTNING	5 / 15 / 30 / 55		No	acid
EXT137 MAGNUM WHEEL CLEANER	5 / 30 / 55		Yes	acid

Foam Detergents are aesthetically pleasing to the carwash customer and used in friction applications for increased lubricity (reduces friction between the cloth and the vehicle surface). All Ver-tech Labs foam detergents have been formulated to rinse easily and completely which prepares the surface for protectants and drying agents. Our foam detergents come in scented and unscented versions. The addition of lights to a foam detergent delivery system enhances the customer experience.

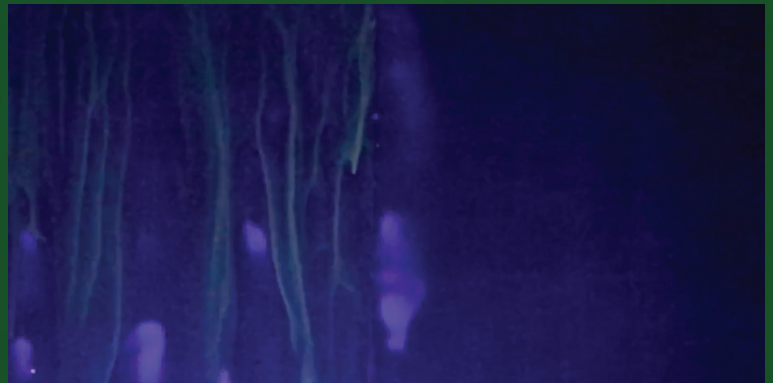

Foam Detergents	Sizes (Gallons)	Reclaim Compatible	Fragrance	Comments
BURST SERIES	5 / 15		grape/tropical/citrus/cherry/ dreamsicle/green tea/seasonal	neutral pH
TRU100 TRU PEARL® CLEAN	5 / 15 / 30		no	neutral pH

EXT410 LEMON SEALER	5 / 15 / 30 / 55	lemon	clear coat	clear coat protectant

Chemicals That Rinse Better, Clean Better.

Ver-tech products are formulated to use less water to rinse completely. Unrinsed products remaining on a car's surface will react with waxes and drying agents, resulting in wetter cars and hazing.

Laboratory testing of a competitor product reveals incomplete rinsing.

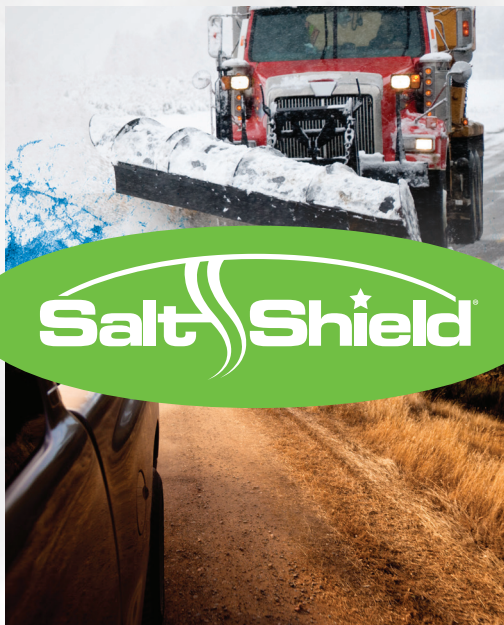

Drying Agents	Sizes (Gallons)	Relative Strength	Water Action on Surface
EXT149 BREAK AWAY	5 / 15 / 30 / 55	3X	beading

Salt Shield®

EXT450 Sizes (Gallons): 5 / 15 / 30 / 55 

Salt Shield is a detergent that cleans and neutralizes road salts and deicers from the chassis and wiring on the underside of vehicles. Salt Shield removes winter sodium, calcium, and magnesium chloride deicer salts, even when those salts are mixed with carriers like cheese brine and sugar beet juice. In addition to removal of salts, Salt Shield includes chemicals reactive on exposed iron and steel surfaces to produce a temporary barrier film. This protective film prevents sodium, calcium, and magnesium chlorides from corroding iron and steel surfaces. Salt Shield is more than a winter season product. Dust suppressants used for construction projects and highway construction contain calcium chloride. There are a number of “me too” salt remover products on the market, but none like Salt Shield. Use Salt Shield all year long.

RECLAIM COMPATIBILITY

Look for this symbol for **RECLAIM COMPATIBLE** Products

Reclaim water using **VTL reclaim compatible** products.

Reclaim system water using chemical products that are not reclaim compatible.

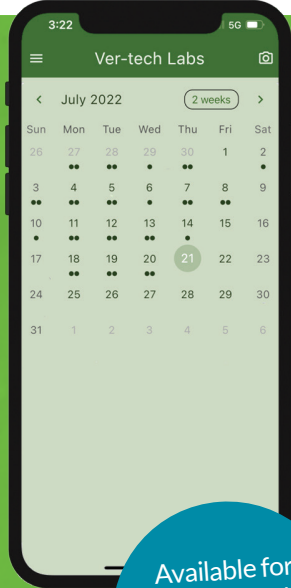

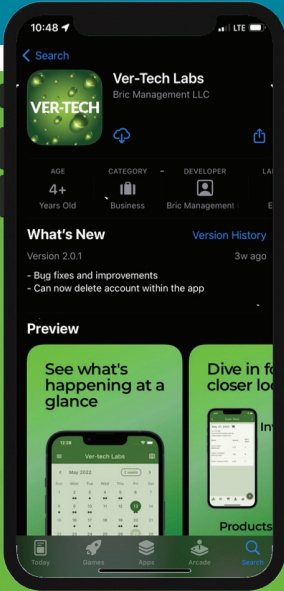

Dirty cars, dirty walls and noxious odors could be indicators that some or all of your carwash chemicals are the wrong choices for your wash's reclaim system.

When non-reclaim compatible detergents mix with the wax products in the reclaim system they react together forming insoluble residues. The growing insoluble residues make it difficult for the good bacteria in your system to work. The most noticeable result is a noxious “rotten egg” odor. Many carwashes notice dirtier walls from the reclaim water used for rinsing.

Ver-tech Labs reclaim compatible products will prevent the problems noted above from occurring in your car wash. Even if the car wash has been using non-reclaim products, simply switching over your car wash product line to Ver-tech Labs chemicals will correct the problems and eliminate the odors within days.

Cleaner reclaim water ensures a better cleaning process, cleaner walls and equipment. Saving water, reducing fresh water and sewage costs, and making a positive impact on our environment are all possible with Ver-tech Labs reclaim compatible carwash chemicals.

VER-TECH LABS APP

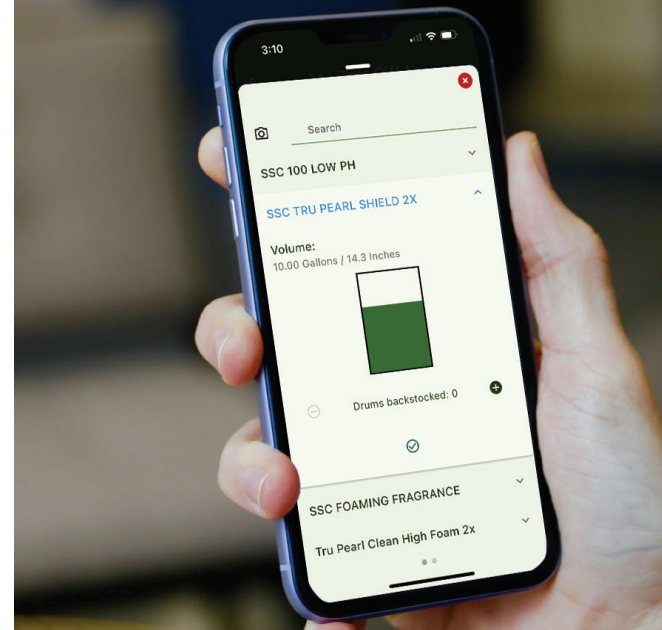

Available for
FREE for all
Ver-tech Labs
customers.

Take your inventory to the next level using the Ver-tech Labs Inventory App. Scan a QR code from any VTL product label for instant access within the app. Complete a full chemical inventory in minutes from any mobile device. The app will automatically calculate products and quantities needed when you are ready to reorder.

Ver-tech Labs app includes:

- Configurations for single and multi-site inventory.
- Customization of personnel access to specific app features.
- Historical inventories and orders.

Manage your inventory and time better using the Ver-tech Inventory App.
