

GRAPHENE

Protectant

01 SELF-CLEANING

Activated graphene-infused layer allows for effortless removal of dirt and soils from the vehicle surface.

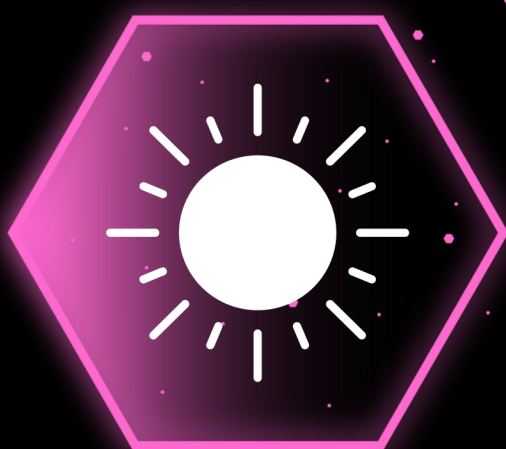

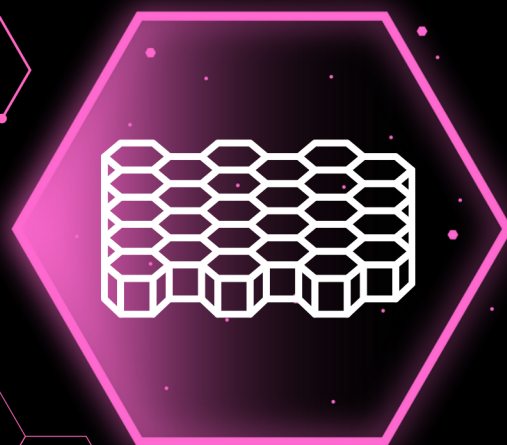

02 ANTI-STATIC

Anti-static properties allow dirt and soils to continuously repel from the vehicle surface.

03 FLEXIBLE

Thin and flexible nature of Graphene enables this formula to conform to the vehicle surface, providing complete surface coverage.

04 TRANSPARENT

The thin Graphene layer allows more light through, enhancing the reflective properties and illuminating the vehicle surface.

05 STRENGTH

Graphene provides ultimate strength and durability for lasting coverage.
