# KEEP YOUR STANDARDS HIGH. WE DO.

The only ISO 9001:2015 QMS certified car wash chemical manufacturer in the U.S.

Ver-tech Labs has spent over 40 years perfecting chemistry that performs—batch after batch, gallon after gallon. Consistent, high-performing products engineered for car wash and large vehicle wash operations. No surprises. No fine print.

We don't do contracts because we believe your business should be earned, not locked in. We're transparent about our products, our pricing, and how to get the most out of your chemistry. We invest in training so your team knows how to optimize every gallon—because the best chemistry in the world doesn't matter if it's not dialed in correctly.

Chemistry that performs. People who show up. No strings attached. That's Ver-tech.

ISO 9001:2015 Certified QMS

# MANUFACTURING EXCELLENCE

Quality is built into every product at Ver-tech Labs.

ISO 9001:2015 certification isn't a badge we hang on the wall—it's how we operate every single day. Every process is documented. Every batch is held to the same standard. Every system is built to improve over time, not just maintain the status quo.

We keep large inventory on hand and scale production to meet real-world demand. That means faster turnaround when you place an order, shorter lead times when you're running low, and reliable supply when the busy season hits. You get what you need, when you need it—without cutting corners on quality or performance.

- ✓ **ISO 9001:2015 QMS Certified**  
Documented processes, continuous improvement, and consistent quality
- ✓ **Experienced Team**  
Decades of combined industry experience behind every batch
- ✓ **Large On-Hand Inventory**  
Faster fulfillment, reduced lead times, dependable supply
- ✓ **Scalable Batch Production**  
Built to support growth without disruption

**>98% On-Time Shipments**  
REPORTED IN 2025

# LAB & QUALITY RESOURCES

The Ver-tech Labs laboratory is where performance is proven and challenges are solved.

Every product we manufacture is supported by rigorous quality control testing and laboratory validation to ensure consistent results in real-world wash environments. Beyond routine testing, our lab works closely with customers to troubleshoot issues, evaluate variables, and develop solutions because lasting performance is built through collaboration.

- ✓ **Batch Quality Control Testing**  
Every batch is tested for consistency and performance
- ✓ **Application & Performance Testing**  
Chemistry evaluated under real wash conditions
- ✓ **Customer Support & Troubleshooting**  
Hands-on testing to diagnose challenges and optimize results
- ✓ **Collaborative Problem Solving**  
Working side by side with customers to find solutions

# INDUSTRY LEADING RECLAIM COMPATIBLE™ CHEMISTRY.

No additives. No bubbles. Just clean chemistry.

## Reclaim Compatibility Starts with Chemistry

Whether you're operating a reclaim system now or planning for one down the road, your chemistry matters. Products that aren't formulated for use in reclaim systems can cause buildup, odor, and maintenance headaches that cost you time and money. Ver-tech chemistry is built to perform in any system—reclaim or fresh water.

### **No Additives. No Band Aids.**

Reclaim compatibility shouldn't require downstream fixes. Ver-tech chemistry is designed to perform without extra additives, shock treatments, or harsh chemicals that do more harm than good.

### **Formulated for What's Next.**

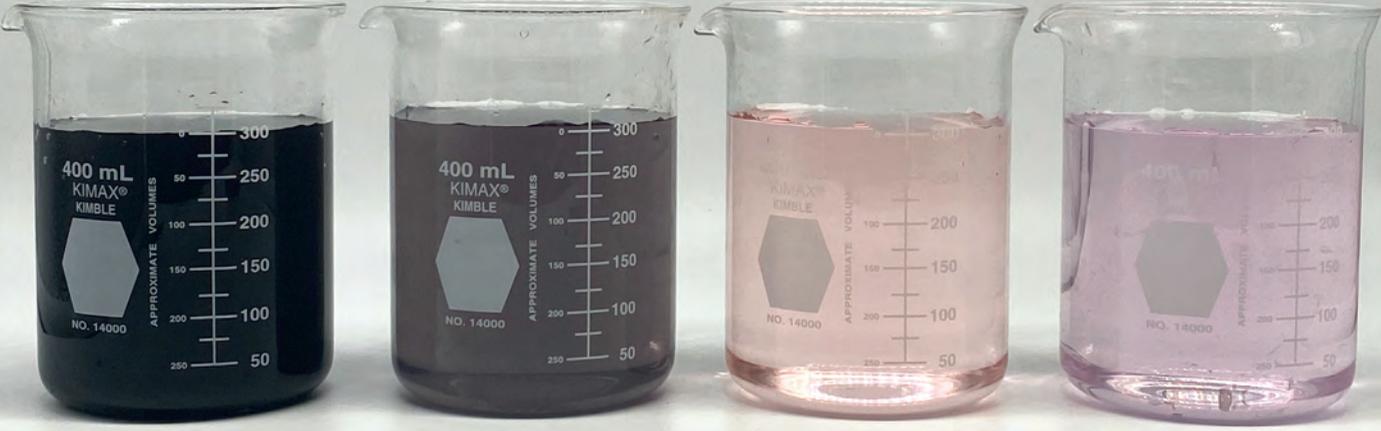

Water regulations are only getting tighter. Ver-tech's reclaim-first approach keeps you ahead of tighter municipal requirements and long-term sustainability expectations—without changing how you wash.

### **Water is Just the Start.**

Efficient reclaim isn't just about reusing water. Ver-tech formulations keep tanks, lines, and equipment cleaner—reducing buildup, wear, and maintenance demands. The result? Lower labor costs and a more efficient operation.

## A RECLAIM STORY:

An Iowa operator came to us battling reclaim odors and inconsistent wash results. After switching to 100% Ver-tech reclaim compatible™ chemistry, the change was visible in less than a week.

DAY 1 DAY 3 DAY 5 DAY 7

Reclaim water samples show the progression of switching to Ver-tech chemistry

DAY 1 – Before Ver-tech	DAY 3	DAY 5	DAY 7
Dark, murky water and unpleasant odors.	Visible results of Ver-tech chemistry working.	Stability and clarity continue to improve.	Clean & stable reclaim water for reuse throughout your wash.

## It All Ends Up Somewhere.

Whether you run reclaim or not, your chemistry ends up in your tanks, your lines, your equipment. Products that aren't built for reclaim cause buildup, odors, and system strain—even in fresh water operations. Ver-tech chemistry is designed to work with reclaim and run clean in any setup.

*“We’ve saved over \$250K in annual water savings after switching to Ver-tech Labs reclaim compatible chemistry.”*

# VAULT CONCENTRATES

**VAULT Concentrates** deliver the performance operators expect and the efficiency today's washes demand. Backroom organization, SKU reduction and freight savings are just some of the competitive advantages that VAULT provides. Backed by ISO 9001:2015 QMS certified quality and supported by a team that shows up, VAULT is more than chemistry, it is a partnership built for success.

- ✓ **Space-Saving Design**  
Customizable to fit in a variety of backrooms
- ✓ **Ultra-Concentrated Formulas**  
Maximize value and reduce shipping costs with compact packaging
- ✓ **Reclaim Compatible Line**  
Full line of water saving chemistry
- ✓ **Safe, Easy to Handle Packaging**  
Easy to handle packaging, color coded and icon driven labels
- ✓ **Training & Resources**  
Support, training and additional resources provided to help your team succeed.

# CONVENTIONAL

No Gimmicks. Just Chemistry That Works. Every Time.

From presoaks to drying agents, Ver-tech's conventional line is built for consistency and results. ISO 9001:2015 certified manufacturing means no batch-to-batch surprises. Available in 5, 15, 30, and 55-gallon drums.

✓ **Multiple Sizes**

5, 15, 30, and 55-gallon options to fit any wash layout, volume, or budget.

✓ **Proven, Reliable Formulations**

Time-tested chemistry designed for consistent performance with each wash.

✓ **Simple Integration**

Works seamlessly with existing equipment – no system changes required.

Traditional Format. Trusted Performance.

# HIGH-PERFORMANCE, METAL-SAFE LARGE VEHICLE WASHING

Large Vehicle. Large Results.

Ver-tech's large vehicle line is professional-grade, metal-safe chemistry formulated to cut through road film, grease, and industrial grime. Built for commercial truck washes, fleets, and municipal facilities—backed by expert support and engineered to work with your current setup. Better results. Less hassle.

# VER-TECH LABS TRAINING

We don't just sell chemistry, we teach it.

Your team makes decisions every day that affect your chemistry costs and wash quality. Ver-tech training makes sure they're the right ones. Inconsistent results, wasted product, unnecessary service calls—many of it traces back to training gaps. Ver-tech fixes that.

We teach the fundamentals, titration, and how to troubleshoot basic challenges before they become big problems. When your team understands what they're working with, they make better decisions—and your operation runs smoother.

**CHECK OUT  
MORE TRAINING**

## ✓ Visit Ver-tech Day

Spend a day inside Ver-tech Labs with hands-on exposure to our manufacturing, lab, and chemistry programs.

## ✓ Onsite/Regional Training

On-site or regional training brings hands-on chemistry education directly to your team – simplifying chemistry, improving consistency, and building confidence.

## ✓ Virtual Training

Topic-focused webinars and other virtual training make it easy to stay informed and reinforce learning on your schedule.

# SERVICE THAT SHOWS UP

At Ver-tech Labs, service isn't an add-on, it's part of who we are.

Chemistry matters. But what happens after the sale matters just as much. You need support that shows up, answers when you call, and actually understands your operation.

That's how we approach every partnership. We earn your business every day. Every wash. Every call.

## ✓ Experienced field support across the U.S.

- Trusted distributor partners providing local support coast to coast
- Hands-on assistance with setup, optimization, and troubleshooting
- Ongoing support as your operation grows or changes

## ✓ How we show up

- We answer the phone
- We communicate clearly
- We solve problems
- We're invested in your success
